Applications and Use

This product is ideal for applications such as numbered identification tickets, fairground tickets and admission tickets.

Conversion and Printing

The product can be converted by all conventional roll conversion technologies including: Letterpress, Offset, Screenprinting, UV flexo and Water-based flexo. This product is also suitable for variable information printing in: Thermal Transfer printing systems. The print quality depends on the correct match of the ribbon, printer and substrate; therefore this Thermal Transfer product was selected after extensive testing with different printer and ribbon combinations. The product is compatible with a wide range of wax and wax-resin ribbons.

Shelf Life

To obtain optimal performance, use this product within one year of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
